RHS Description

This ergonomically designed bidet has been tailored to provide comfort for all Australian residents. The EB-R500 is arguably the best value bidet on the Australian market due to its design and reliability. This bidet has incorporated many features that you may not find in other bidets, such as, a premium stainless steel nozzle, a deodoriser, 2 user presents, a night light and an ECO mode. The EB-R500 comes with a remote control with touch buttons that can be handheld or mounted onto the wall.

The EB-R500 has a SWL of 130kg.

Product Description

ECO Bidet is an amazing Australian Brand. The ECO brand has come a long way with working with Korean manufacturers, using the most reliable and high quality parts to create a bidet specifically designed for Australia.

This classy and stylish bidet was created for the environmentally conscious family to take their hygiene into the Modern Era. The EB-R500 is the flagship of the ECO Bidet Range. This is one of Australia's preferred bidet products due to its extraordinary engineering and design focused on the Australian people and its environment. Due to this exceptional design, this model is our recommended bidet to withstand the elements of Australia's rain water.

The EB-R500 incorporates standard features such as heated water, heated seat & a heated drier. It also includes more advanced features such as a stainless steel nozzle that automatically cleanses itself before and after each wash, a soft LED Night Light designed to light the bowl up for easier use during the night and a deodoriser that removes bad odours by sucking the air out from the bowl through a charcoal block neutralising any smells. Additionally, there is also the option to set and save custom setting presets for up to 2 users. This enables 2 users to save the temperature, nozzle position and water pressure settings in order to get the same perfect wash every time.

NOTE: This bidet can fit on either a fully concealed toilet that has no access to the seat bolts or a toilet that does have access to seat bolts

NOTE: When looking at the bidet/ toilet, the 1.5m power lead comes from the RHS and the water pipe comes from the LHS - THIS CANNOT BE CHANGED

Power Saving	r Saving The Bidet senses when it is not occupied and will automatically go into "powersave mode". This function can be turned off and on.			
Water Saving	An average wash uses about a tea cup or two of water.			
Quick ReleaseThis bidet has a quick release base plate on the bottom of the bide this bidet to be fitted to toilets that have access to seat bolts and toi fully concealed. With the press of 1 or 2 buttons you can slide the b the front of the toilet for easy removal.				

Requirements

You must ensure that you have a tap on the wall, a powerpoint within 1.5 metres of the toilet & a plumber to complete your installation.

This bidet has a quick release base plate on the bottom of the bidet to enable this bidet to be fitted to toilets that have access to seat bolts and toilets that are fully concealed.

NOTE: You will need to know if your tap is located on the LHS, RHS or in your cistern when looking at your toilet. You will also need to know if you have access to the seat bolts. This knowledge is required as extra accessories for installation may need to be purchased.

NOTE: This bidet comes with both sets of bolts (top fixing & bottom fixing bolts)

Additional products that may be required:

- If TAP is on RHS 1m of 1/4" White Pipe and 2x John Guest Adaptors is required
- If TAP is in the Cistern 1/2" Internal Fitting Kit 1x John Guest Adaptor & 1m of White Pipe is required
- If installed on a bottom fixing toilet with arms/rails & 80mm spacer Extension Brackets are required
- If installed on a top fixing toilet with a 50mm spacer Extra Long Top Fixing Bolts are required
- If installed on a top fixing toilet with a 50mm Spacer and Arms/Rails Extra Long Top Fixing Bolts are required
- If installed on a top fixing toilet with an 80mm Spacer Extra Long Top Fixing Bolts & Stabilisers are required
- If installed on a top fixing toilet with an 80mm Spacer & Arms/Rails Extra Long Top Fixing Bolts, Stabilisers and Extension Brackets are required
