EcoBidet EB-S300

RHS Description

The EB-S300 is one of the best value bidets on the Australian market due to its design and reliability. This bidet has incorporated many features that you may not find in other bidets, such as, a premium stainless steel nozzle, instantaneous water heating, deoderiser and an ECO mode. The EB-S300 comes with a simple fixed side control on the right hand side whilst sitting.

The EB-S300 has a SWL of 130kg.

Product Description

ECO Bidet is an amazing Australian Brand. The ECO brand has come a long way with working with Korean manufacturers, using the most reliable and high quality parts to create a bidet specifically designed for Australia.

The EB-S300 comes with all the features you would expect from a premium bidet at an affordable price. It was created for the environmentally conscious family to take their hygiene into the Modern Era. This is one of Australia's preferred bidet products due to its extraordinary engineering and design focused on the Australian people and its environment.

Incorporated in this bidet are the standard features such as heated water, heated seat & a heated drier. It also includes some more advanced features such as a simple side control, a stainless steel nozzle that automatically cleanses itself before and after each wash and a deodoriser that removes bad odours by sucking the air out from the bowl through a charcoal block neutralising any smells.

NOTE: This bidet can fit on either a fully concealed toilet that has no access to the seat bolts or a toilet that does have access to seat bolts

NOTE: When looking at the bidet/ toilet, the 1.5m power lead comes from the RHS and the water pipe comes from the LHS - THIS CANNOT BE CHANGED

Features

Features	Description
Additional Features	
Side Control	All controls are placed on an easy to reach side control on the right side (when you are seated) of the Bidet.
Massage/Move	Moves the nozzle forward and backward in a rhythmic action for a more thorough cleansing and stimulating wash.
Pulse	The water sprays in a rhythmic pulsating action for a soothing stimulating wash.
Enema	A pencil thin stream of soft aerated water is ideal for constipation. Use while trying to pass a bowel movement for the best results.
Child	The child function reduces the pressure of the water to 50%.

Product Descriptions

Deodoriser	Removes bad odours by sucking the air out from the bowl through a charcoal block neutralising any smells. Activated by the seat sensor being activated.
Standard Features	
Heated Dryer	Blows warm air to gently dry you after a wash and offers 5 temperature settings.
Heated Seat	When sitting on the seat it will warm up to the desired temperature and offers 4 different temperature options (no heat + 3 heat settings).
Heated Water	Cleanses with warm water and offers 4 temperature settings (no heat + 3 heat settings) and 5 water pressure settings.
Rear Cleansing	This function is for washing the bottom area only.
Feminine Cleanse	This feature is exclusively for women, to use for their vaginal area.
Fast Heating	When a user activates the seat sensor the water begins to warm up. When the user presses a wash button the water is at the desired temperature before entering the nozzles.
Nozzles	This bidet comes with a single hardened Stainless Steel Nozzle. This decreases soiling and bacterial growth whilst improving hygiene.
Nozzle Position Adjust	The nozzle is adjustable to 5 different positions and should be adjusted to the correct position for washing.
Self Cleansing Nozzles	Before and after each use of the nozzle, they automatically clean themselves to avoid cross contamination. There is also an additional manual button if they require additional cleaning.
Seat Sensor	The moisture activated seat sensor is incorporated in the design to ensure that the bidet or automatic flushing functions cannot be activated unless the seat is occupied. The seat sensor is located between 3 & 5 o'clock on the toilet seat.
Soft Close Seat & Lid	Hydraulic dampers installed at the hinges allow the seat and lid to close softly.
Antibacterial Plastic	The Bidet is made with antibacterial plastic to ensure the highest degree of hygiene & cleanliness.
Power Saving	The Bidet senses when it is not occupied and will automatically go into "power save mode". This function can be turned off and on.
Water Saving	An average wash uses about a tea cup or two of water.
Quick Release	This bidet has a quick release base plate on the bottom of the bidet to enable this bidet to be fitted to toilets that have access to seat bolts and toilets that are fully concealed. With the press of 1 or 2 buttons you can slide the bidet toward the front of the toilet for easy removal.

Product Descriptions

Requirements

You must ensure that you have a tap on the wall, a powerpoint within 1.5 metres of the toilet & a plumber to complete your installation.

This bidet has a quick release base plate on the bottom of the bidet to enable this bidet to be fitted to toilets that have access to seat bolts and toilets that are fully concealed.

NOTE: You will need to know if your tap is located on the LHS, RHS or in your cistern when looking at your toilet. You will also need to know if you have access to the seat bolts. This knowledge is required as extra accessories for installation may need to be purchased.

NOTE: This bidet comes with both sets of bolts (top fixing & bottom fixing bolts)

Additional products that may be required:

- If TAP is on RHS - 1m of 1/4" White Pipe and 2x John Guest Adaptors is required
- If TAP is in the Cistern - 1/2" Internal Fitting Kit 1x John Guest Adaptor & 1m of White Pipe is required
- If installed on a bottom fixing toilet with arms/rails & 80mm spacer - Extension Brackets are required
- If installed on a top fixing toilet with a 50mm spacer - Extra Long Top Fixing Bolts are required
- If installed on a top fixing toilet with a 50mm Spacer and Arms/Rails - Extra Long Top Fixing Bolts are required
- If installed on a top fixing toilet with an 80mm Spacer - Extra Long Top Fixing Bolts & Stabilisers are required
- If installed on a top fixing toilet with an 80mm Spacer & Arms/Rails - Extra Long Top Fixing Bolts, Stabilisers and Extension Brackets are required
