

# BA08 Tamper Proof Remote Holder

Specially designed remote holder for patients with cognitive issue and fine motors problems

Blocks off all setting buttons to stop accidental adjustment of settings

Exposes only the auto button to allow patient to get a 1 minute wash and 2 minute dry with the touch of one button.

Can be wall mounted or held in the hand

*The BA08 Tamper Proof Remote holder must be specifically requested when prescribing this bidet.*

< Standard BA08  
Wall remote holder

< DVA BA08 Wall  
remote holder
